REMARKS

The Examiner is thanked for the thorough examination of the present application, and for correctly allowing all the claims. As helpfully pointed out by the Examiner, Claims 37, 40 and others have been amended to clarify the use of the term "cues" by replacing "cues" with "information" as is consistent with the translation from the original French language. No new matter is being entered. The specification has also been amended to include this change. In addition, Claims 44, 45, 48, 53, 56, 57, 64, 66, 69, 70, 72, 75, 84 and 90 have been amended as requested by the Examiner to correct the noted minor informalities. The amendments to the claims do not constitute narrowing amendments for reasons relating to patentability. Accordingly, a Notice of Allowance is respectfully requested in due course. Should any minor informalities need to be addressed, the Examiner is encouraged to contact the undersigned at the telephone number listed below.

Respectfully submitted,
